Versatile and Results-Oriented **Project Manager and Software Developer with over 15 years of experience** in leading cross-functional teams and delivering cutting-edge technology solutions. Expertise in **cloud computing, data analytics, and software development**, with a proven track record in effective project management methodologies for successful project outcomes.

EXPERIENCE

2018 - 2024 **Project Manager --** *Neahtid Research and Development*

- Transformed ideas into concrete requirements, ensuring project success through effective team collaboration.
- Utilized data analytics tools, machine learning, and cloud services (GCP, AWS, Azure) to drive project outcomes and quality assurance.

2017 - 2018 **Senior Software Engineer --** *Linux Foundation*

- Developed high-quality code using regular expressions.
- Managed resources, timelines, and risks, consistently delivering projects on time and within budget.

2011 - 2017 **Chief Technology Officer (CTO) --** *Fintech Startup*

- Led a team of engineers, managing technology budgets and resource allocation while ensuring data security compliance.
- Implemented Agile methodologies and DevOps practices to enhance development processes and software architecture improvements.
- Designed and developed software solutions in Python and JavaScript, focusing on cloud computing and database management.

2009 - 2011 **Senior Software Engineer** -- *Betazeta, Santiago, Chile*

- Wrote clean, efficient, and well-documented code while staying current with the latest software development trends.

2008 - 2009 **Senior Software Developer** -- *Epson, Santiago, Chile*

- Collaborated with cross-functional teams to troubleshoot software issues and enhance web development using .NET technologies.

2002 - 2008 **Software Developer** -- *Software Factory, Santiago, Chile*

- Developed software for Santander Bank and other financial institutions with proficiency in C# and SQL Server, ensuring compliance with financial regulations.

2001 - 2002 **Broadcast Engineer** -- *Canal 13, Santiago, Chile*

- Troubleshoot technical issues and programmed broadcast equipment, enhancing overall operational efficiency.

EDUCATION

2014 - 2015 **Finance and Investing Diploma**
University of Chile, Santiago

2009 - 2010 **Bachelor of Computer Science**
Santiago of Chile University

2004 - 2009 **Computer Scientist and Engineer, Software Development**
Santiago of Chile University

1999 - 2001 **Electronics Technician**
Federico Santa María University

1995 - 1998 **Computer Programmer**
Diego de Almeida High School

SKILLS

- Proficient in Python, JavaScript, and Database management.
- Expertise in data analytics tools (Pandas, NumPy, Matplotlib).
- Familiarity with machine learning frameworks (scikit-learn, TensorFlow, PyTorch).
- Experience with cloud platforms (AWS, Azure, Google Cloud).
- Strong problem-solving and management skills.
- Excellent written and verbal communication.
